

MIZANUR RAHMAN

Full-Stack .NET Developer

+8801680232852 | mixanurahman@yahoo.com | Github | LinkedIn | Portfolio | Chattogram, Bangladesh

Developer who turns ideas into functioning applications—from concept to working interface. Comfortable across the stack. Writes clean code and solves practical problems. Ready to join a team, tackle real business challenges, and keep growing.

Technical Skills

Backend: C#, ASP.NET Core MVC, Node.js, ADO.NET, Entity Framework Core, Web API, Authentication & Authorization.

Frontend: HTML5, CSS3, Bootstrap, JavaScript, jQuery, Tailwind, Angular, React, MAUI

Database: MS SQL Server, MongoDB

Tools & Others: Git, GitHub, VS Code, Visual Studio, Postman, Swagger, Reports : SAP Crystal Reports, FastReport

Projects

Smart Library Management System (Group Project)

A full-stack library management platform.

Tech: React, TypeScript, Vite, .NET 8 core Web API, Entity Framework Core, SQL Server, JWT, PdfSharpCore, React Hot Toast, Tailwind

Key features: Books borrowing and reservation with admin approval, PDF preview, shelf location hierarchy with capacity enforcement, purchase-order → GRN → shelve flow, permission-based authorization with custom roles, member dashboard with real-time borrowing status, fine auto-calculation, notification system, admin and user reports.

View-API | Angular(Admin-Interface) | React(User-Interface)

Order Management System with Role-Based Authorization

Full-featured web app for managing products, customers, and orders with permission-based authorization.

Tech: ASP.NET Core 8 MVC, MSSQL, Entity Framework, Bootstrap, jQuery/AJAX

Key features: Custom claims-based authorization, transaction management, intelligent order processing.

View on GitHub

Course Management System

Desktop application for educational institutions to manage courses, students, and instructors.

Tech: C#, WinForms, ADO.NET, SQL Server, Crystal Reports

Key features: Complete CRUD, real-time search, referential integrity, parameterized queries.

Repository

Real-Time E-Commerce Website

Real-time e-commerce platform with responsive interface, dynamic product management, and live updates using WebSockets.

Tech: HTML5, CSS3, Bootstrap, JavaScript, jQuery, Node.js, Express.js, MongoDB, Socket.IO, Multer

Key features: Full-stack JavaScript, NoSQL database, real-time web, RESTful API design.

Source-Code

E-Commerce Store Management System

Full-featured e-commerce management system handling product catalog with cascading category-type-brand relationships, automated product naming, order processing with stock validation, and real-time reorder alerts.

Tech: ASP.NET MVC 5, Entity Framework Code First, SQL Server, Bootstrap 5, jQuery/AJAX, async/await patterns.

Key features: Dynamic cascading dropdowns for product selection, low-stock reorder alerts on dashboard, stored procedures for customer order summaries, complete CRUD with image uploads and transaction management.

Repository

MERN Project(E-Commerce)

A online shopping system with product management, cart, wishlist, pre-order support, order processing with real-time status tracking.

Tech: React, TypeScript, Vite, Node.js, Express, MongoDB, Mongoose, JWT, Cloudinary, Nodemailer, Recharts, pdfkit

Key features: JWT authentication ,Cloudinary image upload, Nodemailer email templates, dynamic order progress stepper,admin dashboard with charts,PWA support for Android install and PDF invoice generation with pdfkit.

 [backend-code](#) | [frontend-code](#)

</> VS Code Portfolio

Interactive VS Code themed developer portfolio that simulates a real IDE experience.

Tech: Next.js 16, React, TypeScript, Tailwind CSS, Framer Motion, Google Gemini AI

Key features: Functional terminal with dotnet commands, AI copilot using Gemini 2.0 Flash, color themes with real-time switching, command palette, VS Code-style activity bar and sidebar, zoom in/out/fullscreen, mobile responsive.

 Portfolio

Training

IsDB-BISEW IT Scholarship Programme – Round 67

Intensive 10-month full-stack development training (2025–2026)

- 788 hours of coding in C#, ASP.NET Core, Angular, React, MSSQL
- Built multiple real-world projects individually and in teams
- Focus areas: authentication, REST APIs, database design, frontend integration

Education

Master of Science in Physics – Chittagong College

Bachelor of Science in Physics – Chittagong College

Higher Secondary Certificate (HSC) – Cox's Bazar Govt. College

Secondary School Certificate (SSC) – Cox's Bazar Govt. High School
